

# Sick Policy at BIA

Any scholar with a fever ( $> 99.9$  F) must stay home for 24 hours. When they come back to school they must not have a fever without the aid of antipyretic medication (ie. tylenol, motrin, dayquil etc.) If a scholar still requires medicine to lower their fever, they are not ready to come back to school.

Scholars with bacterial infections must stay home for 24 hours after starting antibiotic treatment.

If a scholar has episodes of vomiting or diarrhea, they need to stay home for 24 hours from the last episode.

COVID-19 Quarantine is 5 days of at home quarantine from the day of symptom onset. The consecutive 5 days will require the student to wear a mask while at school. Be sure to communicate with your scholar's teacher, the school nurse and the front desk if your child tests positive for coronavirus. If another scholar in your child's class tests positive, a letter by your scholar's teacher will be sent out. Your scholar does not need a negative Covid test to come back to school.

All of the above are guidelines for our school, and do not replace the advice of your scholar's medical team. Whatever their medical need at the time may be, please do not hesitate to reach out.

Our goal at Brookhaven Innovation Academy is to keep our scholars and staff healthy to facilitate the best learning environment. If you have any questions or concerns, feel free to contact us.

Best Regards,

Matthew Guibernau RN, BSN
